

# Maximize Efficiency

## Flextur's Cobot Welding Systems

### 72" x 36" Quick-Change Fixture Plate

Flextur™ 72" x 36" Quick-Change Fixture Plate for use on 72" x 36" Flextur Quick-Change Fixture Tables for accurate fixture placement. As a part of the Cobot Welding System by Flextur™ this Quick-Change Fixture Plate assists in creating an extremely accurate, efficient, safe, and highly productive cobot welding solution.

- Extremely Accurate (+/- .01"
- Easy Tack on Fixture
- Change Fixtures in Minutes
- Storage Solutions available
- Patented Design

Part Number: **71500107**

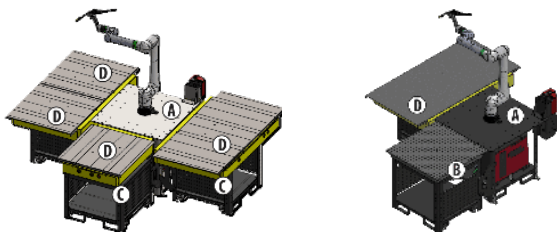

MSRP: **\$1,290.00**

\*Requires Docking Station\* (sold separately)

## The Flextur Cobot Welding System solves these three major issues:

1. **Complexity in Automation:** Designed for simplicity, it ensures ease of use and repeatability.
2. **Transitioning from Hand Welding:** Streamlines the shift to automation, making it seamless for your team.
3. **Slow Changeovers:** Enables faster setups to maximize arc-on time and boost productivity.

Flextur's advanced Cobot Welding System is equipped with Quick-Change Fixture Plates and has proven to boost productivity by over 300%!

When working with Flextur, you too can experience a surge in your metal manufacturing output, address labor and skills gaps, and overcome fixturing challenges.

**The Modular Design of the Flextur Cobot Welding System adapts with you.**
