Nitride+ Welding Tables

Precision on the Move

Flextur Nitride+ Welding Table - 48" x 96" x 6"

5-Sided Mobile Welding Table with Tool Board

The Flextur Welding Table combines durability, precision, and versatility, making it the ideal solution for demanding welding projects. Measuring 48"L x 96"W x 35"H with a 1/2" steel top supported by 3/8" x 5" struts every 16", this table ensures surface flatness of +/- .015" over 4 square feet. The dual-layer protection of nitride & black oxide is a powerful combination. Both harden and prevent corrosion, extending the life of your table – while maintaining flatness and structural integrity. Equipped with heavy-duty swiveling lockable casters and a 4,000 lbs. capacity, it offers mobility without compromising stability. The 16mm locator pin in a 2" grid pattern allows quick and easy setup changes, while skirting with matching hole configurations enables table extensions for larger weldments. Built-in steel tool board panels keep tools organized and accessible, enhancing workflow efficiency. Ideal for welders of all experience levels, this table reduces setup time and boosts productivity. Proudly American-made in Dalton, Ohio, the Flextur Welding Table is compatible with a full line of accessories (sold separately) to customize your setup to fit your exact needs.

Technical Specifications

- **Dimensions:** 48"L x 96"W x 35"H
- **Tabletop Thickness:** 1/2"
- **Hole Diameter:** 16mm
- **Grid Pattern:** 2"
- **Finish:** Nitride + Black Oxide
- **Flatness Tolerance:** +/- .015" Surface Flatness
- **Support Structure:** 3/8" x 5" steel struts every 16"
- **Weight:** 1,450 lbs
- **Load Capacity:** 4,000 lbs
- **Material:** Steel

Features

- **Mobility:** Equipped with heavy-duty swiveling lockable 2"W x 6"H casters for easy movement.
- **Precision:** Surface flatness within +/-.015" ensures accurate setups for complex weldments.
- **Flexibility:** Movable locator pins and a 2" grid pattern enable quick changeovers and adaptable setups.
- **Scalability:** Skirting allows table extensions up to 24" with Flextur Fixture Block (sold separately).
- **Durability:** Robust steel construction supports heavy-duty applications with up to 4,000 lbs capacity.
- **Tool Board Panels:** Organize tools efficiently and keep them within reach.

Fixturing Kit (sold separately)

Compatibility and Accessories

- Compatible with Flextur Accessories (sold separately).

Assembly and Shipping

- Base requires assembly.
- Table top ships assembled.
- Made in the USA (Dalton, Ohio).
