

## Outfit Your Facility for Maximum Productivity.

### Flextur™ is Equally Capable in Every Department of Your Facility.

Engineered to solve unmet Lean and 5S workflow needs, Flextur products featuring Flextur Tool Board, the Industry's Strongest most versatile metal Tool Board System can improve efficiency in nearly every part of your business.

**As a Manufacturing Leader, You Face Many Challenges:** Hitting production, financial, timing, and quality goals. Decreasing overall costs; labor, material, process, and product improvements. Labor shortages and skills gaps. To constantly improve on overall compliance issues and the safety of employees and visitors to your facility. An unorganized workplace causes excess waste of materials and motion. Time lost searching for tools and wasted in processes by the different ways employees perform tasks. This leads to mistakes, defects, downtime, and potential injuries.

### Imagine a Highly Adaptable, Yet Standardized Solution for Your Entire Facility.

Imagine a system that is easily made personal for every employee workstation, yet consists of standard off the shelf products and accessories that everyone, in every department is comfortable with. Think of the additional benefits of being able to re-purpose as personnel, departments, and the needs of the facility change. These are unrealized benefits that can be obtained if you utilize Flextur products in your pursuit of implementing LEAN and 5S principles within your facility.

*Learn How To Interlink & Synchronize Your Facility On the Back of this Sheet.*

# Interlink & Synchronize Your Facility

## Welding

**Flextur™ Welding Tables** are right at home in nearly any welding department or fabrication shop. Highly adaptable and extremely flexible because of their mobility, variety of sizes and **Flextur™ Wall Mount Panels** for efficient tool storage within reach. Flextur tables are great for manual welding as well as co-bot applications. Effectively outfit a single cell or a whole department when combined with **Mobile Tool Board** and other Flextur products.

## Training Facility

When bridging skills gaps and keeping employees up to date on certifications and processes an effective training room is key. By using **Flextur Mobile Tool Board**, **Work Benches** and **Welding Tables** in combination, it is simple to set up an efficient, space conscious, highly adaptable training room or facility.

## Maintenance

Maintenance Departments become instantly more effective when they utilize **Flextur Mobile Tool Board** and **Accessories** to create mobile service centers. General maintenance, cleaning, electrical, plumbing, hydraulics, are all easily accommodated on **2 and 4 Panel Mobile Tool Board Systems**. In addition Flextur has very versatile, very robust metal **Utility and Tear Down Carts**. These are a must for automotive and machine repair projects, and other specialty applications.

## Tool Crib & Hardware Room

A highly organized tool crib and hardware room are easily obtainable when using **Flextur** metal pegboard. Engineered to solve unmet 5S tool control needs, Flextur can support your efforts at every turn. With so many accessories and hooks to choose from, setting up your tool crib, hardware room, or facility is simple with Flextur.

## Assembly

**2 and 4 Panel Mobile Tool Board Systems**, **Flextur Workbenches** featuring **Metal Tool Board** and other Flextur products are engineered to streamline your assembly department. From tool and material organization and storage, to rugged 3/8" steel work surfaces, Flextur has you covered. **Flextur Tool Board Accessories** reach beyond tool organization with excellent solutions for keeping paperwork and other documents close at hand, all within your assembly station. All of these combine to create a safer, more efficient assembly area that employees will appreciate.

## Packaging

Flextur has more to offer than highly capable **Packaging Stations**. **Flextur Wall Mount Tool Board** is a tremendous asset to any packaging department. **2 and 4 Panel Mobile Tool Board Systems**, and **Flextur Workbenches** also featuring Tool Board will help you get the tools and materials you use most, in an easy to reach location. Eliminate unnecessary bending, reaching and fatigue that's often present in assembly and packaging applications by easily adjusting accessories to organize what you need in the optimum position.

## Shipping & Receiving

Another part of the facility where Flextur can make a tremendous impact. By using a **Flextur Packaging Station** you can easily standardize your packing process. But Flextur offers so much more with **2 and 4 Panel Mobile Tool Board Systems** that can be set up in a way you can take your station with you. Because Flextur manages paperwork, labels, and tools equally, it's a great solution for a mobile shipping station. **Utility Carts** are also excellent for interdepartmental deliveries and most any receiving department.

## Office & Showroom

Flextur can even help organize your mailroom, office and showroom with **Flextur Wall Mount Panels** and a variety of **Tool Board Accessories** for paper management and display. Yes, the same products that can assist in Welding, Assembly, Maintenance and nearly everywhere else in your facility can work in your office just as well.
